OBJECTIVE

2nd year B.Tech student in Artificial Intelligence and Data Science with strong foundations in Python, and Web development. Seeking hands-on software engineering experience to apply and grow my coding and algorithmic skills.

EDUCATION

B.Tech in Artificial Intelligence and Data Science

2024 - 2028

Vignan's IIT (Vignan's Institute of Information Technology)

AP, India

CGPA: 9.67/10

SKILLS

Programming Languages:	Python, C, Java
Data Structures and Algorithms :	Arrays, Linked Lists, Stacks, Queues, Trees, Sorting, Searching, Problem Solving, OOP
Web Development:	HTML, CSS, Bootstrap, Django
Libraries:	NumPy, Pandas, Matplotlib
Databases:	MySQL, SQLite
Developer Tools:	Git, GitHub, VS Code, Anaconda, PyCharm, Google Colab

PROJECTS

YouTube Study Mode – Chrome Extension

HTML, JavaScript, Chrome Extensions API

- Developed a **productivity-focused** Chrome extension to tackle the common problem of student distraction on YouTube, that introduces a toggle-based **Study Mode** to minimize YouTube distractions by hiding Shorts and video recommendations, using **Chrome Extension APIs** including **content scripts** to dynamically modify the page.
- Implemented a popup-based UI with persistent state management using **Chrome Storage API**, allowing users to enable/disable Study Mode seamlessly across sessions; source code available on **GitHub**. [GitHub](#).

Wallet Watch – Expense Tracker Web Application (Deployed)

HTML, CSS, Bootstrap, Python, Django, Chart.js — Render

- Built a full-stack, **user-authenticated** expense tracker using Django, supporting secure registration/login and category-wise **CRUD operations** for personalized expense management.
- Developed **interactive analytics (pie charts, monthly trends, top spending insights)** using Chart.js, designed a **responsive Bootstrap UI**, and deployed on **Render** with source code and live demo hosted on **GitHub**.

Live Demo: [Render](#) | GitHub: [GitHub](#)

CERTIFICATIONS

- NPTEL – DSA using Python:** 81% — Silver Medal — Top 5% | 2025
- NPTEL – Problem Solving Through C** | 2025
- NPTEL – Cloud Computing** | 2025

ADDITIONAL LEARNING

- Currently learning advanced DSA and participating in coding challenges to improve my Problem Solving skills.
- Exploring data science using Python, including libraries like NumPy, Pandas, and Matplotlib for practical problem-solving and analysis.
